Acrylic Enamels

Durable and safe, available in 35 intermixable colours

Whatever your creative project, our Acrylic Enamel Paint range, available in 35 intermixable colours, is the perfect replacement for a traditional solvent-based enamel.

They've been specially developed for easy use, internally or externally, and are non-hazardous and low odour. Our Acrylic Enamel Paint range is also durable and long-lasting, with a beautiful finish. They're completely safe for children's toys, and can be applied using a brush or an airbrush.

And because they come in 35 intermixable colours, you'll be able to achieve the exact shade you're looking for with a little experimentation.
