

# Oil Based Scumble

---

A traditional transparent oil glaze with an extended drying time for decorative paint work. Polyvine's Oil-Based Scumble dries to a translucent gloss finish on a wide range of surfaces. It can be tinted with Polyvine's Woodgrain Oil Colourant, most oil-based paints, or universal stainers. After brushing the coloured Scumble over the base coat, the desired decorative effect is created by breaking the surface with a crumpled rag, bag, sponge or a Polyvine tool or brush. When the glaze is completely dry it can be sealed with a coat of Polyvine Extra Pale Varnish.

## KEY FEATURES AND BENEFITS

- ✓ Water Resistant
- ✓ Stain Resistant
- ✓ Longer working time
- ✓ Dries to a translucent gloss finish

## APPLICATION INFORMATION

Application tools: Brush  
Coverage: 15- 20 sqm per Litre  
Drying time: Base coat 24 hours  
Scumble Coat 24 hours

## AVAILABLE IN

Finishes: Gloss sheen  
Sizes: 500ml, 1 litre and  
2.5 litre

---

## ADDITIONAL INFORMATION

- Apply acrylic eggshell or alkyd undercoat in a colour suitable to create the desired effect and allow to dry for a minimum of 24 hours.
- It is recommended that the scumble is thinned with white spirit to ensure it's applied in a relatively thin film.
- The appropriate viscosity will depend on the technique to be used.
- Colour your Scumble with Polyvine Woodgrain Oil Colourant, most oil based paints, or universal stainers.
- The use of a little white paint will stabilise delicate colours.
- Stir thoroughly.
- Brush the coloured Scumble over the base coat.
- Create the desired decorative effect by breaking the surface with a crumpled rag, bag, sponge or a Polyvine tool or brush.
- When the glaze is completely dry, seal with a coat of Polyvine Extra Pale Varnish.
