

Oil Colourants

To transform any oil-based products, use Polyvine's Oil Colourant.

Featuring dense pigments for colouring glaze, paint and varnishes, our Oil Colourant is available in 7 concentrated colours for superior colour saturation. You can use it with most oil-based products – from scumble glaze and stain right through to varnish and interior alkyd paint.

You can colour all of our oil-based products with 10% of oil colourant.

Available colours: dark, light or medium oak, mahogany, pine, teak and walnut.

KEY FEATURES AND BENEFITS

- ✓ Quality colour pigments
- ✓ Easy to mix
- ✓ Vibrant natural woodgrains
