

Tropical Scumble

A clear acrylic glaze that can be used with acrylic colourant

Polyvine's Tropical Scumble offers a one-hour working time glaze in temperatures above 21 degrees centigrade.

This is a unique and transparent acrylic glaze for decorative paint work in temperatures above 21°C/70°F, or in lower temperatures where a longer working time is required.

It dries to a durable water resistant finish on a wide range of surfaces. This interior or exterior glaze is the first water-based product that faithfully reproduces the beauty of traditional oil finishes.
