

DECORATORS VARNISH

Polyvine's Decorators' Varnish is the go-to choice for professional and amateur decorators looking for a superior, long-lasting finish.

It's perfect for use on emulsion paint, wallpaper and other surfaces, and gives long-term protection against finger marks, stains, scuffing and colour fading.

This unique, clear acrylic varnish uses nanotechnology to protect a wide range of decorative surfaces such as paintwork, wallpaper, fabric, wood and plasterwork. And given its UV blocking and absorption properties reduce ageing and deterioration, it's no wonder it's the varnish of choice for so many.

Available in either gloss for a shiny finish, satin for depth and a soft sheen, or dead flat for a completely shine-free surface.

ADDITIONAL INFORMATION

Always apply to a test area before starting work. Appearance may vary according to the colour, type of surface, and the number of coats.

Do not apply over uncured oil paints.

Dilute 10% with water to prime porous surfaces.

Caution, when using rollers, stippling may occur. Please visit polyvine.com for further application information.

Do not shake the product.
