

MULTI-SURFACE LACQUER

A hard, durable, crystal clear, fast-drying lacquer for multi-surface protection.

This high-quality lacquer dries to a hard, crystal clear dead flat, satin or high gloss finish. It has extremely good sanding properties and is specially formulated to bond to a wide range of surfaces. It can also be used as a multi-surface primer and is relied upon by professional and amateur decorators for its durability and ease of use.

Polyvine's Multi-Surface Lacquer is available in high gloss for a shiny finish, satin for depth and a soft sheen, or dead flat for a completely shine-free surface.

ADDITIONAL INFORMATION

Always apply to a test area before starting work. Appearance may vary according to the colour, type of surface, and the number of coats.

Do not apply over uncured oil paints.

Dilute 10% with water to prime porous surfaces.

When applied over emulsion/latex paint, it is possible that the lacquer could draw certain stains through the paint.

Do not shake the product.
