

# WAX FINISH VARNISH

---

A unique and traditional wax-like, brush-on, protective varnish, for a high-performance satin or non-reflective finish.

Protect your furniture and other interior wooden surfaces with Polyvine's Wax Finish Varnish, combining the silky feel of wax with the durability of a varnish. Reminiscent of the traditional feel of lovingly preserved furniture, it retains the natural appearance of the wood.

It is available in satin for depth and a soft sheen, or dead flat for a completely shine-free surface.

Also available is our coloured satin which transforms wood with subtle, even shades. Our coloured satin can be given a completely non reflective finish with just one coat of clear dead flat varnish.

## KEY FEATURES AND BENEFITS

- ✓ Can be used on MDF
- ✓ Multi-surface application
- ✓ Water & abrasion resistant
- ✓ Very good sanding properties
- ✓ Can be used as on fire surrounds

## ADDITIONAL INFORMATION

Always apply to a test area before starting work. Appearance may vary according to the colour, type of surface, and the number of coats.

Do not apply over oil-based finishes.

Dilute 10% with water to prime porous surfaces.

Protect the finish from water and steam for five days after application.

Do not shake the product.
