

WOOD DYE

Whether inside or out, produce a rich depth of colour to your wood by deeply penetrating it with Polyvine's water-based wood dye, available in 11 different colours. Make sure you protect it with a clear varnish from the Polyvine range.

Polyvine's Wood Dye is a quick-drying, light, fast, versatile, water-based dye. It's been formulated to avoid unsightly overlap marks to give an even, lustrous finish. Perfect for interior or exterior use, it can be further protected with a layer or two of clear Polyvine varnish over the top.

Feeling creative? Our colours are fully intermixable, giving you a limitless range of colour possibilities to enrich the wood.

Colours available: mahogany, teak, walnut, medium oak, antique pine, green, blue, black, white, grey and taupe.

ADDITIONAL INFORMATION

Always apply to a test area before starting work. Appearance may vary according to the colour, type of surface, and the number of coats.

For a lighter shade, the dye may be diluted with water.

Do not apply in direct sunlight.

We recommend protecting with a Polyvine water-based interior/exterior varnish after leaving to dry overnight.

Do not shake the product.
