Picture: Glass Frosting

ADDITIONAL INFORMATION

- Ensure that glass is clean and at room temperature – approx 20 degrees C (68 degrees F).
- Brush onto glass evenly.
- Produce texture using a small dry sponge roller or a small synthetic sponge, working lightly across the wet surface.
- Use masking tape and stencils to create your designs, in positive or negative.
- Carefully remove tape and stencil before medium dries.
- Use only soapy water to clean glass once frosted.
- To produce coloured frosting add Polyvine Acrylic Colourant or for a metallic finish add Polyvine Metallic Paint.
