## GLITTER PAINT MAKER INTERIOR – EXTERIOR

### DESCRIPTION

Sparkling glitter for decorative finishes. A shimmering metallic glitter specially developed to add to any water based paint or varnish giving sparkles of light to your finish. Simply mix with your choice of coloured paint or varnish to create a sparkling decorative effect.

Shimmers when dry • superior quality • fine metallic particles

Available in Gold Glitter, Pink Glitter, Rainbow Glitter, Silver Glitter.

### FOR USE ON

**Adding to chalk paint • metallic paint • emulsion paint • furniture paint • ornaments • walls • painted surfaces • paper • fabrics • most porous surfaces**

### UNIQUE SELLING POINTS

Shimmers when dry • superior quality • fine metallic particles, Manufactured for water based varnish and paint. Available in Gold Glitter, Pink Glitter, Rainbow Glitter, Silver Glitter.

### SURFACE PREPARATION

As per base product.

### APPLICATION

Ensure that all surfaces are clean and free from grease, oil, dirt and contaminants. Read the instructions and warnings carefully on the product you are mixing the glitter into before starting. Add the glitter gradually to your chosen paint or varnish while stirring slowly and thoroughly. We recommend 75g of glitter per 2.5L of paint or varnish, though you can choose to add depending on the coverage of glitter you require. Use a smooth/gloss roller for best results and even distribution of glitter. The glitter will achieve its full effect when the paint or varnish is dry. We recommend trying on a test area first, if you would like to get that higher level of sparkle then rub the painted surface with a dry lint free cloth after the glitter paint is dry but not fully cured. Caution: We recommend familiarising yourself with the effect on a small test area before starting work.

The glitter may settle in the mix if left too long before application.

As with all water-based coatings, do not apply at temperatures below 8°C (as recommended by British Standard BS 6150). Or above 30°C.

### CAUTION

Apply as chosen product instruction. Always apply to a test area before starting work. Care must be taken when applying in high temperature or direct sunlight as this will affect drying time. Test for compatibility before application.

### COVERAGE

The coverage, drying, curing, will be the same as quoted on your chosen paint.

# TECHNICAL DATA SHEET

---

## NUMBER OF COATS

As per chosen paint or varnish - see application section.

<b>Cure Time:</b>	Not Applicable
<b>Drying Time:</b>	As chosen paint
<b>Recoat Time:</b>	As chosen paint

## PACKAGING

75g.

## STORAGE

Protect from extremes of temperature during storage and application.

Store in unopened containers in a cool dry place away from direct sunlight.

Shelf Life: Many years in tightly sealed container.

## HEALTH SAFETY AND THE ENVIROMENT

Non-hazardous. Keep out of reach of children. Contact with eyes - wash immediately with warm water.

If swallowed, seek medical advice immediately and show the container or label.

Do not empty into drains, dispose of this material and its container at hazardous or special waste collection point.

## CLEAN UP EQUIPMENT

Any equipment used can be cleaned using soap and water before the clear coat dries. Wipe any excess off surfaces with a damp cloth. Any dried deposits will need Polyvine Varnish and Paint Remover to remove them.

## DISPOSAL

Look for special facilities locally. Do not empty into drains or watercourses.
