

TECHNICAL DATA SHEET

FLOOR CLEAN PRO

DESCRIPTION

A unique professional strength, environmentally responsible, highly concentrated specialised water

soluble, biodegradable cleaning **concentrate** for the simple and safe cleaning of finished floors.

Disinfects and breaks down odours.

Specifically designed for the cleaning of all floors, particularly formulated to be very efficient on lacquered

wood and cork floors.

Suitable as a multipurpose cleaner for both inside & outside use in residential & commercial properties. It breaks down stains and soiling

Always carry out a test on a small area first to both confirm its suitability and determine the strength of solution required.

Surface Clean Pro can be used for regular mopping or in machines

Effective and safe • Low foaming • Fresh smell • Leaves no residue

FOR USE ON

patios, kitchens, bathrooms, decks, floors, cladding, public spaces, eating and entertaining areas

all floors and other surfaces

AVAILABLE FINISHES

Smear and residue free

UNIQUE SELLING POINTS

Disinfects surfaces

Direct to Floor application:

Instant Dry/Streak-Free Formula: Specially formulated to dry rapidly without leaving residue, allowing immediate traffic on the floor.

Multi-Surface Compatibility: Suitable for all sealed surfaces (tiles, laminate, wood, vinyl).

Advanced Fragrance Technology

Ensures low environmental impact.

Recycled Packaging: Bottles made from 50% or more Post-Consumer Recycled (PCR) plastic.

Anti-Static Layer: Leaves an invisible layer to prevent dust from settling on hard floors.

Low Foam Formula: Ideal for use with machines, reducing the need for constant maintenance and improving efficiency.

Fast drying.

Biocide boost - the finished surface remains free from mould, algae and fungus. Inside and outside. The product gives excellent protection from fungal degradation.

TECHNICAL DATA SHEET

SURFACE PREPARATION

Remove loose dust/grit etc. using a vacuum cleaner, scissor mop or other dry-cleaning method.

APPLICATION

Polyvine Concentrate Cleaner can be used for regular mopping or in a machines

Effective and safe • Low foaming • Fresh smell • Leaves no residue

Concentrate - Normal cleaning: 50 ml 1 capful to 5 litres of water (1%) Heavy Soiling/Mechanical Use 100 ml 2 capfuls to 5 litres of water (2%):

The temperature must not fall below +5°C or exceed +30°C during storage and transport. Waste and emptied containers should be handled in accordance with local regulations.

DIRECTIONS FOR USE

Pour into a plastic bucket filled with 5 litres of clean warm water and gently stir until all the product dissolves.

Apply the solution generously with a mop or plastic watering can and leave for 5 to 15 minutes.

Do not allow the solution to dry on the surface being cleaned.

On large areas the process needs to be carried out in sections.

Use a mop or sponge to clean the surface.

Heavily soiled areas should be gently agitated with a bristle brush.

Repeat application process if required and finally rinse the cleaned surface thoroughly with clean water.

Use a well wrung cloth, mop or scrubber-dryer machine with low dispensing of water. Note that excessive use of water may damage the floor.

Clean the surface in the longitudinal direction of the floor.

Always keep the amount of water used to clean to a minimum and be careful where the floor has open gaps.

Replace the cleaning water periodically to avoid streaking.

Water should be removed from the floor promptly, make sure never to leave puddles.

Cleaning by hand: If the floor is very dirty, you can work with two buckets, one for clean soapy water and the other for wringing out the cloth.

Do not use aggressive pads on the surface. Aggressive pads may scratch and wear on the surface.

The milder the pad, the less the wear.

Observe recommendations from flooring and floor coating manufacturer

Dilute concentrate according to recommendation and clean the floor Use a well wrung cloth, mop or scrubber-dryer machine with low dispensing of water. Note that excessive use of water may damage the floor.

TECHNICAL DATA SHEET

PACKAGING

500ml. 1 US pint plastic containers.

STORAGE

Protect from extremes of temperature during storage and application. Store in unopened containers in a cool dry place away from direct sunlight.

Shelf Life: Many years in tightly sealed container.

HEALTH SAFETY AND THE ENVIRONMENT

Harmful if swallowed

Causes serious eye damage

Causes skin irritation

May cause respiratory irritation

Keep out of reach of children

Do not get in eyes, on skin, or on clothing

Wear protective gloves/protective clothing/eye protection/face protection.
